

CERTIFICATE #5323 - 10/12/2009

THE BONNEVILLE ENVIRONMENTAL FOUNDATION HONORS

Steaming Kettle Consulting

for reducing greenhouse gas emissions by supporting BEF Carbon Offsets. Together we have kept over 1.5 million tons of carbon dioxide from entering our atmosphere.

All Bonneville Environmental Foundation Carbon Offset products are from 100% new, renewable resources and are Green-e® Climate certified. For more information regarding BEF Carbon Offset supply sources, visit: www.b-e-f.org.

MARGARET G. GARDNER | BEF CEO

AUTOMOBILE MILEAGE
OFFSET EQUIVALENT
16,482

We appreciate your support of our foundation. At BEF, we thoughtfully and strategically invest our financial resources, our knowledge and our hard work to create meaningful and measurable changes in our nation's use of energy and water resources.

HERE ARE THE DETAILS OF YOUR BEF CARBON OFFSETS ORDERED ON 9/20/2009:

Tatanka Wind, ND/SD

Located on the Dakota border between North and South, this 180 MW project is comprised of 120 Acciona 1.5 MW turbines, which are manufactured in Iowa. Online since July 2008, the facility produces about enough energy to power 60,000 homes.
